

Errata for **The Definitive Guide to Grails, Second Edition** (978-1-59059-995-2)

Page	Original Text	Corrected Text
xxviii	http://svn.codehaus.org/grails/trunk/samples/dgg	http://svn.codehaus.org/grails/trunk/grails-samples/dgg
13	"...shown in Listing 11-1."	"...shown in Listing 1-11."
13	"Length login (length:5..15) Uses a range to restrict the length of a string or array"	(None—entry should be removed from table)
13	"minLength password (minLength:6) Sets the minimum length of a string or array property"	(None—entry should be removed from table)
13	"maxLength login(maxLength:5) Sets the maximum length of a string or array property"	(None—entry should be removed from table)
58	"Likewise, when an Employee is saved to the player table,..."	"Likewise, when an Employee is saved to the person table,..."
89	"The following line automatically handles binding the file to the s:"	"The following line automatically handles binding the file to the album:"
89	"def user = new Album(params)"	"def album = new Album(params)"
89	"response.outputSream.flush()"	"response.outputStream.flush()"
115	"\${it.songs?.title.contains('Love')}"	(should be bold)
129	"the system is falling back to a max of 10."	"the system is falling back to a max of 100."
133	"<div id="artists">"	"<div id="albums">"
156	"Listing 6-26. Unit Testing a URL Mapping"	"Listing 6-26. Integration Testing a URL Mapping"
212	"def buyFlow {"	'def buyFlow={"
214	"With that done, you're going to take advantage of the knowledge you gained about SiteMesh layouts in Chapter 5."	(none—delete this sentence)
260	"...to find all albums that contain the word <i>Shake</i> ."	"to find all albums containing a track that contain the word <i>Shake</i> ."
268	"...methods like get in Listing 10-8."	"...methods like get in Listing 10-25."
271	"In Listing 10-16, an instance"	"In Listing 10-30, an instance"
272	"...of the code from Listing 10-15."	"..of the code from Listing 10-25."
272	"Consider the code in Listing 10-15 again."	"Consider the code in Listing 10-25 again."
303	"The example in Listing 10-15..."	"The example in Listing 10-31..."
278	"...iterate over each song..."	"...iterate over each album..."
283	"...you should not use a transactional cache."	"...you should use a transactional cache."
315	"...all the heavily lifting is done for you."	"...all the heavy lifting is done for you."
335	"you need to configure this job to check out everything under /projects/development/code/ grails/gTunes/, then you will need to specify a value for the "Project Base Directory" field. The problem here is that the job root is /projects/development/code/grails/gTunes/, so the plugin will execute all Grails commands from that directory. Since that isn't the root of the Grails project itself, all the Grails commands will fail. To support this scenario, the "Project Base Directory" field should be given a value of /projects/development/code/grails/gTunes/, which is a relative path from the job root directory down to the root of the Grails project. With that in place, all of the Grails commands will be executed from the /projects/development/ code/grails/gTunes/ directory."	"you need to configure this job to check out everything under /projects/development/code/, then you will need to specify a value for the "Project Base Directory" field.
